

TARIQ RASHEED ALMUTAIRI

DIGITAL PRODUCT & SOLUTIONS SPECIALIST

Riyadh, Saudi Arabia | +966 53 966 0700 | tariq@ib.com.sa | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Digital product and solutions specialist with hands-on experience since 2021 launching and operating SaaS platforms and business systems across legal services, sports, healthcare, cybersecurity, and events. Skilled in translating business needs into working products, configuring domains and hosting environments, deploying cloud applications, customizing open-source platforms, integrating third-party services, and supporting products from concept through launch. Founder of Hostwork SA and Integrated Business.

CORE CAPABILITIES

SaaS Implementation & Configuration | Product Launch & Operations | Cloud Application Deployment | Domain, DNS & cPanel Management | Business Process Automation | API & Third-Party Integrations | Open-Source Platform Customization | Vendor & Partner Onboarding

PROFESSIONAL EXPERIENCE

Founder & Digital Solutions Lead | Integrated Business | Riyadh | 2025 - Present

- Founded a Saudi technology business delivering cybersecurity solutions, software licensing, custom digital products, and IT services.
- Completed the company's registration as a cybersecurity services and solutions provider with the National Cybersecurity Authority.
- Established and managed technology partner relationships with Fortinet and Adobe, coordinating vendor onboarding, solution sourcing, and client requirements.

Founder & Digital Product Specialist | Hostwork SA | Riyadh | 2021 - Present

- Led the launch and continued operation of MyCases Cloud, a legal-practice SaaS platform for case, client, document, task, billing, and notification management.
- Supported a platform footprint reporting 64+ client organizations and more than 30,000 case records.
- Delivered corporate websites and managed domains, DNS, cPanel, hosting environments, application deployment, maintenance, and client support.

Digital Solutions Contractor | Tennis Home Academy | Riyadh | 2023

- Implemented the academy's digital booking experience and launched membership and customer-balance capabilities across its services.
- Integrated booking workflows with Google Calendar and email notifications, and supported supplier registration with Sports for All and Qiddiya.

Digital Solutions & Partner Enablement | Rtelo | Riyadh | 2023 - 2024

- Supported the launch of the technology and cybersecurity company, delivered its corporate website, and coordinated provider registration and cybersecurity vendor relationships, including Fortinet and Splunk.

SELECTED PRODUCT DELIVERY

- **Raketa (2025):** Led delivery of a mobile sports-matching platform for discovering players, creating matches, location-based discovery, chat, and membership features; coordinated Expo, Supabase, PostgreSQL, and Next.js components.
- **ChatPulse (2025):** Deployed and customized an open-source omnichannel platform on Heroku; configured Meta WhatsApp Cloud, appointment booking, reminders, and customer-notification workflows for a medical center.
- **Rizi (2026):** Co-developed an event-management SaaS graduation project covering event pages, guest registration, invitations, QR check-in, programs, and analytics using Next.js, Expo, Supabase, and PostgreSQL.
